

Guidelines

By following these easy guidelines, you will find your display will be quick and easy to assemble when preparing for your important event.

Set-up Guidelines

1

Everything you need to assemble your display is stored in this hardy travel case.

2

Undo the clips at the side to take out the frame.

3

Stand the frame on the floor. By lifting the frame, expand with coloured poppers facing the top....

4

5

6

.....to expose an erect frame.

7

When fully expanded, the locking arms will click the frame securely into place from this.....

8

.....to this.

9

Take the magnetic bars out of the bag.

10

Magnetically attach bars onto the system for front, ends, and (if you have back graphics), to the rear.

11

Take out the rolled up graphic panels from the case and unroll.

12

The graphics should hook onto the top popper on each side of the hub.

13

Hang graphic panels from the poppers at the top of the frame first. Start with the centre graphic and work outwards.

14

Smooth the graphic panel onto the mag bars, ensuring that it sits flat and is aligned to the centre line of each magnetic bar.

15

Apply the other front graphics in the same way.

16

Repeat for the end panels, ensuring that the fit is correct.

17

Wrap graphic around case and secure at back with velcro to form a handy case-to-counter. Graphics may also be attached by velcro to the case lid.

18

Your Pop-up is ready to exhibit.

Storage

To keep your Pop-Up in top condition, here are some helpful tips to follow.

19

Place the black graphic wrap on floor with velcro furthest away. Subsequently place each graphic panel on top of the next with graphic artwork facing down, and header strips closest to you.

20

All panels should be face down with the header strips offset, to prevent damage to panels.

21

The complete Pop-up components are stored neatly away inside the case.

22

The lights and leads are stored away inside the case lid.
